## ■ ISTRUZIONI DI PULIZIA CLEANING INSTRUCTIONS

**VETRO** Pulire la parte con un panno che non lasci residui e detersivo per vetri diluito in acqua oppure con alcool diluito in acqua, per le macchie provocate dall'acqua calcarea utilizzare acqua calda e bicarbonato.  
**Non usare:** polveri o spugne abrasive e prodotti contenenti cloro.  
**Consigli:** prestare attenzione nel togliere il film di protezione. Non lasciare sui piani oggetti di ferro arrugginito.

**GLASS** Clean the surface with a clean towel and non-aggressive liquid window cleaner diluted in water, or with alcohol diluted in water. Dry with a soft and dry towel.  
**Do not use:** powders / abrasive sponges or pumice, ammonia-based products, acetone and furniture wax, lye or solvents.  
**Advices:** keeping the surfaces away from the light is recommended. It's possible that the towel can be slightly colored after the first cleanings. This phenomenon won't happen again once the dust made from the drying process is eliminated.
